DANGER ZONE

**RISK MANAGEMENT + TRANSPARENCY
+ REGULATORY + SAFETY (EMPATHY)**

The growth buffer zone gets contaminated by corruption due to greed, arrogance, incompetence, systemic and personal ethical loopholes, and treacherous white collar criminal acts committed by the banks and the financial system against the American people and world financial markets.

On March 16th 2011 the FDIC filed personal criminal charges against Kerry Killinger, Stephen Rotella, and David Schneider of Washington Mutual. We must clean the criminality out of our banks, whose monopolistic control of the credit markets is holding the whole country hostage, and has caused more terror, pain & suffering, and economic destruction than Osama Bin Laden.
